### **Definitions:**

Modifier – When a modifier is present, this indicates system may have different reimbursement or code edits for that procedure code/modifier combination.

For example:

26 = professional component

TC = technical component

**Description** – Procedure code short description. You must refer to the appropriate official CPT-4, HCPCS or CDT-5 coding manual for complete definitions in order to assure correct coding.

**Effective** – This is the first date of service for which the listed fee is applicable. Fees for drugs, radiopharmaceuticals, blood products, immune globins, vaccines, and toxoids are reviewed and updated quarterly -- effective dates that are greater than three months old indicate that there has been no fee change since that date.

**Method** – Source of fee determination

Fee Sched: Medicaid fee; not determined using RBRVS payment schedule

**Medicare**: Medicare-prevailing fee.

By Report (BR): Equals 47% of billed charges. (Physician administered drugs will be priced by NDC if no rate is present.)

Anes Value: Number of anesthesia base value units. This is added to the 15 min. time increment units and multiplied by the anesthesia conversion factor of \$27.55.

RBRVS: Based on Medicare Relative Value Units (RVU's) x Montana Medicaid allied health conversion factor x policy adjustor. Allied health conversion factor for fiscal year 2012 is \$23.24

\*If a valid, current code is not present, that code may be a non-covered service

The facility rate is paid to physicians/practitioners providing services in the following sites: hospitals, emergency rooms, ambulatory surgery centers, IHS provider based and IHS 638 free standing facilities, skilled nursing and nursing facilities, hospice, ambulance, inpatient psychiatric and partial psychiatric hospitals, psychiatric residential treatment centers, comprehensive inpatient rehab facilities, birthing centers and military treatment facilities. All other sites of service receive the office rate.

Procedures not normally done in the office are shown with the same facility rate, while those done in both locations have different rates.

Bundled services, which are covered but paid as part of a related service, are shown with an RBRVS method and a fee of \$0.00.

Policy adjustments are applied to certain codes to increase or decrease reimbursement for the service.

Vaccines covered by the Vaccines for Children (VFC) program are not reimbursable for individuals under 19. Please refer to the Medicaid Provider website for a list of VFC vaccines

Global Days - Global surgery indicator. Global surgery periods are pre- and post-operative time frames assigned to surgical procedures.

000: Same day as procedure

010: Same day and ten days following procedure

**090**: One day prior to and ninety days following procedure

**MMM**: In maternity cases, the global period is per the CPT-4 code description

**ZZZ:** Add-on code, global period does not apply. An add-on code must be billed with its associated primary code

**Space**: Global concept does not apply to this code

**PA** – Prior Authorization

Indicators

Y: Prior authorization is required

Space - this indicator does not apply to this code

Mult - Multiple surgery guidelines do apply

Bilat - Bilateral. The procedure can be done bilaterally

Assist - Assistant. An assistant is allowed for this procedure

**Co-Sura** - Co-Surgery, A co-surgeon is allowed for this procedure

**Team** - A team of surgeons is allowed for this procedure

Related - The procedure code listed is separately billable

Y - indicator is applicable to this code

**Space** - this indicator does not apply to this code

**Policy Adjust -** F = Family Planning M = Maternity
